

Certificate. Wirklich Ökogas.

Official certificate from Polarstern GmbH for using:

Wirklich Ökogas by Polarstern – 100 % from organic residual materials.

Awarded to:

Rasco GmbH
Geigelsteinstr. 6
83059 Kolbermoor

We are delighted to award this certificate to the Rasco GmbH as a partner in the energy transition. Because real better energy is used for heating – Wirklich Ökogas by Polarstern.

- Sustainability guaranteed: no admixture, no resources from factory farms or cultivated energy crops/ monocultures such as oilseed rape or maize, no deals with dubious certificates.
- 100 % from organic residual materials, generated during the sugar beet processing in Kaposvár/ Hungary.
- With a multiplier effect: Polarstern invests 0,25 Cent per used kilowatt hour of Wirklich Ökogas into new renewable energy plants.
- Real change – worldwide: the Rasco GmbH supports a family in Cambodia in building their own biogas digester.

The Rasco GmbH prevents an annual output of 47.159 kg CO₂ by using Wirklich Ökogas:

Wirklich Ökogas by Polarstern is monitored, certified and supported by:

Dr. Jakob Assmann
